

Good Sunday morning to the fleet!

Beautiful early morning moon here in Honolulu, I hope plenty of you have clear enough skies to enjoy the natural light at night.

Rio 100 hit an unidentified piece of wood/flotsam and lost their port rudder. After an exciting couple of hours of repairs they are back on course with starboard rudder only, no emergency rudder. Great comms and calm aboard Rio 100 last night, good job Rio 100 team!

See comments below re: Blue Flash...it's an interesting steering great race this year??!!

I'm glad I got to Honolulu early this year, looks like we will see some multihulls here Monday late afternoon.

Have a great Sunday out on the Transpac route! Sail fast and safe.

All is well onboard BlueFlash as our new jury rigged spectra steering cable is holding following a few hours on the emergency tiller after our steering cable failed at approx 1800pdt yesterday. Especially for myself(Sean Grealish)and the two other teenagers onboard, this has always been more than just a race, so we look forward to enjoying our slightly longer and slower trip to Hawaii under a main and jib.
